TO ALL MEMBERS

ELECTION OF ONE REPRESENTATIVE TO THE MINES SURVEY BOARD

I am directed by the WAIS Board to invite nominations from WAIS members to fill the vacancy left by Russell Haigh on the Mines Survey Board (MSB).

The MSB is established under Section 82 of the Mines Safety and Inspection Act 1994, and ensures the high standards of surveying and safety of mining operations in Western Australia. The members are appointed under Regulation 3.44 of the Act.

The functions of the MSB are:

- To examine the qualifications, experience and character of persons applying for Authorised Mine Surveyor certificates, and issue such certificates where appropriate
- To deal with complaints concerning the holders of Authorised Mine Surveyor certificates, and to suspend or cancel such certificates where appropriate
- To advise the Minister on survey matters relating to mines and mining operations, including quarries and quarry operations

Under Regulation 3.44, the nominated person must be a Licensed Surveyor and an Authorised Mine Surveyor Grade 1 who is currently engaged in the mining industry.

All current financial members of WAIS (excluding Affiliates) can participate in this nomination.

Given the criteria this position may be difficult to fill. We therefore encourage you to seek out any of your colleagues that can meet the requirements and nominate them so that appropriate representation on this very important Board can be maintained.

On receipt of nominations, the WAIS Board will vote and elect a representative in accordance with WAIS bylaw 5.2, and will submit the representative's name to the Department of Mines, Industry Regulation and Safety, for recommendation by the Minister for appointment by His Excellency to the Governor to the MSB for a term of 3 years.

Nomination forms signed by two members, and the nominee, must reach the Secretary by 12:30pm on Monday, 23 September 2019.

Eugene Browne
Secretary
9 September 2019
